## Summary

Full Stack Developer(Flutter, Angular, FastAPI, Django,NextJS) with a strong academic background and around 6 years of commercial experience. Ability to think through a problem coupled with a confidence to make ideas heard. Experienced in Mobile App and Backend Development.

I consider my strong work ethic to be my key strength. Apart from this, I have proved my responsibility and success by fulfilling the company's goals on time.

### Skills:

Python,Flutter, Django, FastAPI, Django, Django Rest Framework.

### Roles and Responsibilities:

- Figma UI to Flutter
- API Integration
- GraphQL(Hasura), REST API
- Bash Scripting
- Flutter State Management(Riverpod, GetX, Bloc etc)
- Knowledge of SDLC
- Google Maps in Flutter
- Knowledge of Architecture Approaches(MVVM, MVC, etc)
- Firebase & AWS(EC2, S3, ROUTE-53,VPC, RDS, etc)
- Docker
- REST API
- AWS EC2, S3

## Experience

### **ZIL Enterprise Pvt Ltd**

Mar 2022 - Present (2 years 7 months)

#### 1.AWS Cloud Architecture & CI/CD Implementation:

Utilized Amazon Web Services (AWS) to design scalable and dependable cloud infrastructure. Implemented robust Continuous Integration and Continuous Deployment (CI/CD) pipelines to streamline software delivery.

#### 2.Development of Django APIs for Data Exchange:

Engineered resilient APIs using Django and Django REST Framework, enabling seamless communication between frontend and backend components. Leveraged Python's capabilities for

efficient data processing and logical implementation.

3. Deployment of Hasura Engine(GraphQL) for Weaviate Vector Database:

Deployed the Hasura engine for a Weaviate vector database used in the LLM (Language Model) feeding process, exploring and experimenting with various open-source LLM solutions.

4. Collaborated on LLM and AI Research with Senior AI Engineer. Contributed to LLM and AI research alongside senior AI engineers, fostering advancements for creating chatbots.

5. Android and iOS Deployment(Deployment to App Store and Play Store).

## **WEBD Inovation**

Jun 2019 - Jan 2022 (2 years 8 months)

1. Collaborate with team members to ensure complete project delivery. Coordinate with developers, UI team, and project manager for suggestions and changes.

2. Interact with clients, the UI team, and the project manager for feedback and adjustments. Communicate effectively to implement desired changes.

3. Engage senior backend developers for API discussions and potential changes. Ensure smooth integration between frontend and backend components.

4. Troubleshoot reported issues and implement fixes promptly. Address production bugs to maintain system stability.

5. Apply expertise in mobile app development, REST APIs, SQL, and Linux. Utilize object-oriented programming for efficient coding.

6. Utilize Git and GitLab for efficient version control and collaboration. Contribute effectively to the development team.

7. Deployment of Flutter Mobile application to Playstore.

## **Projects:**

### **Android & iOS LoadZPro App**
